

Submitter: Jasmine Strickland

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

As a parent of children, who've been in a well regarded charter school, I am opposed to this. Lewis and Clark montessori charter school has been operating for over 14 years. Our school has recently been asked to find a new location as the lease was terminated on our current building. To find the kind of building that will house all the students in one facility and keep our entire school under one roof is a tall order, much less under a deadline in this sort of situation. We love our school and it would be terrible to see such legacy ruined by this bill.
