

Submitter: Calista Songstad

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

Chair Dembrow, Vice Chair Weber, and Committee,

The children of Oregon have suffered greatly the past three years. The test scores have plummeted and the teachers have the impossible task of catching whole classroom's of kids back up. Oregon should commit itself to opening every avenue possible for children to find the school where they can thrive. Let's remove the caps that limit these children from finding the school that works for them instead of creating more barriers to education. Please Vote No.
