

Submitter: Kate Stevenson

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

Lewis and Clark Montessorri Charter is everything to our family. My three sons attend the school, one of which is challenged with many learning disabilities. To have our school closed would be crushing to our family. We have finally found a space to properly support our son - where his confidence and education is blossoming. I really do not know what I would do without our charter.

I wish the new location was closer to our current building, but due to the many constraints we face, and a lease termination from GBSD, the only option we have is just barely out of the boundary (less than 1000 ft!)

Please consider the families, and specifically my son, who would be impacted by the closure of our school. The Lewis and Clark Montessorri Charter means the world to us. Please oppose.
