

Submitter: Benjamin Wash

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

We love Lewis and Clark Montessori Charter School. The impact that it would have on me if our school were to be moved or shut down is that my home is very far from Gresham Barlow and Clakamas, so by being able to move schools the location that we are looking at is closer to my house by a lot. The impact that this school has had on me is that when I went to a public school is that all we would do is review stuff all day all year. Being at this school has taught me so much in all subject, but at a public school I would probly haven't learned half of what I know now. Also our school allows pets and live plants opposed to a public school that doesn't allow pets and some don't even allow live plants. Please don't let Bill 767 pass.
