On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

I personally love this school because not only have they taught me most of the important life skills I know today but have made me feel safe and supported through my learning journey. I have been in this school basically my whole life and have made my greatest memories here. It would impact me very hard if our school had to close. I can't imagine going to any other school. I would miss all our amazing teachers, staff and my friends. I love Montessori so much and it would be very hard to find one next to my house that I could afford and I know that a lot of families at this school couldn't either.
