

Submitter: Maya Lopez

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2773

Hello,

I am a public health nurse, and I support HB 2773 because scholarships, student loan forgiveness and repayment assistance, childcare subsidies, tuition assistance, sign-on bonuses, etc., specifically for employees of local public health agencies are all excellent and meaningful ways to keep people working in public health, to advance their careers, thereby improving the health of the public.
