

Submitter: Tessa Ingram
On Behalf Of: Myself
Committee: Senate Committee On Education
Measure: SB767

Lewis & Clark Montessori has served children and families for 14 years while being bounced from building to the building whenever the district sees fit. Now we have the opportunity to source a long-term home and under the threat of SB 767 passing we may lose our son's place in learning due to a technicality of a few feet. A school's purpose is to serve the community. Why stand in the way? Please re-evaluate and allow our school access to proceed in our new home.
