

Submitter: Marianne Bickett

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

HJR5 will deny Oregonians ongoing ability to modify and update wildlife conservation and protection. We need the democratic process of utilizing our voices through our votes to make sure all of Oregon is heard regarding issues that greatly impact wildlife, one of our greatest resources. Please do not move this amendment forward. It is a clear violation of our rights. Thank you!!
