

Submitter: Andrew Scannell
On Behalf Of: Lewis and Clark Montessori Charter School
Committee: Senate Committee On Education
Measure: SB767

My family founded this amazing school with a handful of other families, 14 years ago. My niece and nephew attended and are wonderful young people attending UofO and Gresham H.S. My daughter attends Lewis & Clark Montessori Charter School and really thrives in this environment. She has been part of 2 moves so far with a 3rd move this year because our sponsoring school district, Gresham Barlow, terminated our lease. This is shameful!

Our school leaders found a new home and it is 1000 ft from the school district line.

Passage of this bill would negatively impact an entire community of 400 students, families, and teachers.

I strongly oppose!
