

Submitter: Elizabeth Ashby

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

We parents deserve a choice in our child's education! Charter schools provide a choice/ option. Charter schools offer parents an alternative to traditional public schools without the financial burden of leaving the public education system.

my family has been on a waiting list at our local charter school in Powell butte for a while so clearly the demand of parents wanting to put our/ their children in charter schools is sought after !

Thank you for reading!

Elizabeth
