

Submitter: Rachel Gibson
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

As a parent of special needs children who are unable to attend a traditional school environment, I oppose this bill. It will impact many students and educational facilities which families rely on for safe and appropriate education. It's especially concerning that the inability to find a building within a specific district will effectively close an entire school whose students will have no options for similar education services. The transition for these students would set them back and have a negative outcome not only for their educational journey, but also their mental and emotional well being.
