

Submitter: Jody OLeary

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

WHY WHY WHY are we placing more restrictions on parental choice and better options for our children?? This is insane. There is clearly a need for more charter schools with the growing demand and waiting list for these schools. The public school system is failing our children and it's becoming more and more apparent as families leave the public school system. We should have options NOT restrictions. If this is your way of combatting the mass exodus from the public school then you need to look within and do what is right.
