

Submitter: Kay Ellison  
On Behalf Of: We love Lewis and Clark Montessori Charter School  
Committee: Senate Committee On Education  
Measure: SB767

The 400 families that attend the Lewis and Clark Montessori Charter School will all be affected negatively by the forced moving of the school, should this bill pass. We all know how education can affect our children. I was fortunate not to have to change schools during my own elementary school experience. As a public school teacher, however, I did teach children who had to move. It affected them for months, at best. It is interesting to note that the location of this school is within 1000 feet of the boundaries the bill requires.
