

Submitter: P Horne
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

My Grandson has attended Lewis & Clark Montessori since Kindergarten. He has thrived socially and academically. His school would be closed if this bill passed, putting a greater burden on the local schools that are overburden now. He too would be required to attend an unknown school and readjust to new people and make new friends.

Please don't pass this bill. It means a lot to his friends in his school.
