

Submitter: selina bean
On Behalf Of: Lewis and Clark Montessori charter school
Committee: Senate Committee On Education
Measure: SB767

The repercussions of this bill would be devastating for my student, our family and our school community. Our 14 year old school has been given very short notice to relocate before next year. A viable solution is in the works and would be rendered impossible if this were to pass as the new location would put us a handful of blocks outside the sponsoring district. Please consider the impact this bill will cause on our kids and their school community and help us have the chance at continuing to grow a Montessori charter option for an underserved area.
