

Submitter: Susan Nackoney

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

I oppose SB 767. Our family has been part of Lewis and Clark Montessori Charter school for five years. This amazing special school would be shut down by this bill. The school needs to move on extremely short notice because the home district, Gresham Barlow, decided they need the building for themselves. The school has been looking for a long time and found a building to purchase 1000 ft outside of the district boundary. Now it appears that the school may be closed completely by this bill. This would be a truly heartbreaking outcome for 400 students, their families, and the community they would like to serve into the future. Please save Lewis and Clark Montessori Charter School .

Thank you,

Sue Nackoney, parent
