Measure: SB767

Submitter: Rangel Alejandro Camara  
On Behalf Of: Lewis & Clark Montessori Charter School  
Committee: Senate Committee of Education  
Measure: SB767

Please do not pass bill SB767 as this will be yet another obstacle for our children's future.

I have two young girls attending Lewis & Clark Montessori Charter School. They love their school and their teachers and are very grateful for the opportunity to have such a wonderful community and staff.

The school has been forced to look for a building in such short amount of time given to them by GBSD as they have once again terminated their contract. With well over four hundred plus students and staff this has been a very challenging experience for everyone to endure. If this bill passes this will be of great sadness to our children and their future please consider this opportunity we have to own a building that would belong to the four hundred plus children that make up Lewis and Clark Charter School.

I oppose to this bill.
