Measure: SB618
SB 618 SENATE COMMITTEE ON JUDICIARY

Vehemently Oppose to SB 618, a citizen has a right to life and to protect the right to life a citizen should not be subjected to an outrageous sentencing by legislators as SB 618 to protect themselves from death with body armor. How about you propose legislation that doesn't allow police to wear body armor and see how well that goes over, a life is a life whether a person is wearing a badge or not.

Total opposition to police using deadly force, if an officer can shoot a head or a chest shot; why in the hell can't the police shoot a person in the arm or leg to incapacitate the person?

What is the human reaction to being injured? The person will look down at the wound or be distracted by the shear pain of being shot. So why are cops allowed to use deadly force? It's sad that Oregon police have become entirely too militarized.
