Measure: SB616

SB 616 SENATE COMMITTEE ON LABOR AND BUSINESS

Hell to NO, Oregon and the USA fact, alcohol is used heavily, Coroners all over this country under-report deaths caused by alcohol. Alcohol is processed in the human body as methanol; retards and deforms the cells, alcohol attacks every organ and tissue in the body.

Moreover, the legislature wants to deliver this human bodily poison, methanol, to a household's front porch, have y'all lost your ever-loving-minds? Better Bill would be legislation to demand that coroners specify what caused the heart failure, stroke, brain/liver/kidney/bladder/esophagus and all other parts of the human body that will be damaged and cause cancers by consumption of alcohol.
