

Submitter: Heather Amperse  
On Behalf Of: Lewis and Clark Montessori Charter School  
Committee: Senate Committee On Education  
Measure: SB767

My children attend Lewis and Clark Montessori Charter School. This school has been such a huge positive impact in their lives. This bill would be detrimental to the school and the children of this school. The school is changing locations due to our supporting district taking the building back. Administration has been amazing at securing a new location for the children to continue learning. This new location would put us in Reynolds School District. While I love our school and the fact that this would be a permanent home for us, this district and needing permission because of this bill would be an unmeasurable disadvantage to all who attend Lewis and Clark Montessori Charter School. We would be moving less than a half mile from the boundary. Please oppose and stop this bill.

Sincerely a parent of kids who need this school.
