

Submitter: Don Rowlett

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

This bill makes perfect sense. Charter schools should work in harmony with the school district in which they are located, even if sponsored by another district.

Forcing a charter school into a district that does not want it cannot be good for existing schools in that district. If it were good, then there should be no trouble getting approval from that district prior to starting operations.
