

Submitter: julie Chura
On Behalf Of: Lewis and Clark Montessori Charter School
Committee: Senate Committee On Education
Measure: SB767

I am concerned about the implications of this bill on a Lewis and Clark Montessori Charter school. Because of the shortage of large buildings in our area, the school is being forced out of our current building. We are in a low income area and do not have the funds to build our own building, thus the only option is to look in an adjacent districts zone. This bill may force the school to close. Our students currently have a high school graduation rate of 100%.
