Older women need shelter and income as much as young workers. Older women need all the help they can to get jobs and keep them. They are the last employed and the first lit go. So many of us stayed home with children so we entered or are trying to enter the workplace older. Most have a hard time finding a job. They want to earn the 40 quarters to qualify for Social Security just like other workers but because they are the first to be let go in a recession or for any reason ,they have a hard time. No one can live on the amount of money they earn for Social security. They need to be able to earn work to save also.
