Measure: SB767

Hello Senate Committee on Education,

I oppose SB 767 which intends to limit the scope by which public charter schools may conduct operations in school district that is not sponsor of public charter school.

It is the role of parents to best decide how their children should be educated. Already the format of public school is difficult ,and in fact, detrimental to many students. Charter schools which can organize around niche needs of students and families are important in my opinion.

Any action taken by the state to limit where our tax dollars go for the education of our children - not the state's children! - is clearly in the best interest of maintain power over the population rather than serving them, which is your chartered purpose.

Sincerely,
Mark Laughlin
