

Submitter: S Sanford
On Behalf Of: Oregon Charter Schools
Committee: Senate Committee On Education
Measure: SB767

While this bill may have been written in response to an out of state charter trying to attach themselves to an Oregon sponsor school, as it stands it will have a hugely detrimental impact on Oregon children. The bill restricts Oregon charter schools from being able to be flexible and creative within their communities to find adequate facilities to operate while population growth is causing school boundary lines to continually change. The bill needs to be rewritten to target its intended purpose, protecting Oregon schools from out of state residents. As it stands, this bill causes way more harm than good. The success of Oregon students should always be the top priority.
