

Submitter: Russell Kautz
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

Parent should have a choice in selecting schools that provide an alternative to the public school indoctrination program. Charter schools offer parents an alternative to public schools without the financial burden of leaving the public education system. The majority of Oregonians support school choice. As an elected official, you are to represent the views of your constituents. By opposing SB 767, you can demonstrate your commitment to representing "we the people" and preserving our right to choose our children's education.
