Oppose SB 767

To whom,

I adamantly oppose SB 767. I reside in a small coastal town with one option for my children and their schooling. SB 767 would completely limit my choice for educating my children.

We attend a charter school now, and love it. I believe we can all say that the public school system needs work, at the least, and having options such as charter schools, gives freedom of choice. Do not take my freedom of choice for my family.

Thank you,

Ronda L.
