Measure: SB767

Hi,

I oppose SB 767. I believe that excellence in education is best achieved when charter schools are free to make decisions about how they operate. We should not limit them. If we want each child in Oregon to have the best education possible (and we have far to go in this regard), we want to keep all our school options open, so that parents can make decisions about what best benefits their children. Limiting charter school operations reduces the autonomy of these schools to operate as they - and the parents who choose them - see best. Like the majority of Oregonians, I fully support school choice. Each child is unique, so maintaining many unique schools, including charter schools, will offer the best possible set of options to parents for their children -- and without undue financial burden.
