

Submitter: Penelope Ryan

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2137

Honorable senators and Representatives:

For too long we have delayed building a third bridge across the Willamette River. It is now more expensive than ever. It will never get cheaper.

The traffic on t h e bridge is intolerable, to say nothing of what might happen to West Salem if a disaster destroyed one of the bridges we already have.

Bite the bullet and get us a new bridge.

Thank you.

Mrs. P.J. Ryan
