

Submitter: Cate Anevski
On Behalf Of: Lewis and Clark Montessori Charter School
Committee: Senate Committee On Education
Measure: SB767

My daughter is a student at Lewis & Clark Montessori Charter School and has been thriving there. She started amid the Covid pandemic, and it has been wonderful to see her able to learn at a perfect pace for herself and make new friends, after so much time isolating during the pandemic.

The school needs to relocate within a very short timeframe, and the only viable option at the moment is less than 1,000 feet outside of its current district.

Please allow Lewis & Clark Montessori Charter School to continue operating and serving the community with a wonderful education that is helping so many young students re-enter the school system after such a traumatic period of isolation.
