

Submitter: Anne Ryland-Anderson

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

As a health care provider in the public and private sector for 35 years I have treated thousands of children age 12 to 18. As everyone is aware children learn differently. Success is the key to education. Choice is essential in Oregon to find the right manner of education for each child. As a foster parent for over 5 years I have seen my foster kids struggle in the public school system with little recourse for alternative choices. (prior to Charter schools in Jackson County). The choice of school is NOT in the jurisdiction of the state or ODE legally or morally. A child, their parent or guardian are the best persons to make this decision.
