

Submitter: Pat Krikorian
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

It is the civil rights of parents to create charter schools as stated in Oregon law. Public education should not be a monopoly. Parents should have the right to decide the type of school their child attends. This is bad law and oppressive. It certainly is not an emergency unless public schools fear that the only way they can keep students is by eliminating any competition. which forces one size fits all education.
