

Submitter: Randy Davis
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

My name is Randy Davis and I am writing to respectfully ask that you support HJR 5, which would ensure Oregonians' future in the right to lawfully and ethically harvest their own food in Oregon.

As a hunter, angler, and wild-food gatherer, feeding my family with lawfully and ethically obtained wild game is a priority for me. My family and I place a high value on knowing exactly where our food came from, and enjoy the satisfaction of acquiring it ourselves. In recent years the right to obtain sustainable, wild-sourced food, which is valued not just by me but hundreds of thousands of Oregonians, has come under attack. The passage of HJR 5 would secure this right in perpetuity without creating damage to the wild resource. This would be an incredible win for Oregonians who care deeply about our wild landscapes and choose to live as active participants within them. With all of the current supply-chain issues and soaring food costs, the need for securing our ability to harvest wild food, particularly wild game, is more evident than ever.

Please support HJR 5.

Thank you for your time and consideration.

Sincerely,
Randy T Davis
