

Submitter: Rod Schilling
On Behalf Of: Concerned citizen and tax payer
Committee: Senate Committee On Education
Measure: SB767

To the Oregon State Legislature: I am writing in opposition to Senate Bill 767 as a fundamentally flawed and prejudicial piece of legislation. Our failing Public School System has earned no right to oversee anything. Their singular plan for social engineering, at the cost of education, has stunted Oregon's students and rendered many of them incapable of thriving within our society. Diversity in education can only be achieved when many points of view are available, and strongarming alternative schooling will make critical thinking all but impossible. As parents seek ways with which to assure their children's education and future, I hope that you will oppose hindering them with heavy handed, diversity stealing, legislation.
