

Submitter: Ambir Hazard
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

To whom it may concern,
I highly recommend not blocking this measure, but putting amendments in place so there could be exceptions.
My daughter (and hopefully soon my son) attends City View Charter School. Currently they are within the Hillsboro School District and have been since it first started many years ago. As the years have past the school has grown and it has become "home" for many of the families. Soon, their lease is up, and although they have a location set up to replace the current, thriving building, it is just outside Hillsboro School Districts parameters. This measure being passed, without any amendments, would shut down my child's home. The community that this school has granted my family with has been a blessing, and to start over would be heartbreaking. Please take my family, as well as hundreds of other families, into consideration.
