

Submitter: Sara Saba
On Behalf Of: City view charter
Committee: Senate Committee On Education
Measure: SB767

Both my daughters attend City View Charter school located in Hillsboro. This school has been an absolute blessing. Both my daughters are thriving at City View. We had searched for years to find a school for them. We finally found City View and I couldn't be happier. Their schools lease is set to end here shortly. They have been working for years to purchase a building for the school and finally have found one that meets their needs just outside their boundary. If this bill passes without any exceptions it will be the end of my daughters school. They would be devastated.
