

Submitter: Jacob Debban

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

My child currently attends, and is thriving at, City View Charter school. The lease on their school will soon be up and after 10 years of searching they have found a building 0.5 miles outside of the boundary. If this bill passes as it is without any exceptions then this could mean the end of this school. Please be aware that passing this bill without any exceptions can mean the END of some Oregon charter schools. Including my own daughters.
