

Submitter: Amy Bengé

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

On behalf of my daughter who attends city view charter school I'm begging you not to pass this bill! The charter school and helped her so much and given her a chance to express herself In a way normal public school can't! City view has been around for over 10 year renting a church and we have finally I, finally found a place to call our own but it's 1/2 mile out of district!

Please allow this not to pass and let continue to give our children the best place to be themself with a wonderful school and wonderful tools k-8
