

Submitter: NW Coastal Range
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB2137
HB 2137 HOUSE COMMITTEE ON TRANSPORTATION

Not equitable to the other three counties, only benefits Marion County. Irrefutably, the congestion problem is state government all bunched up into one government square in Salem.

If building another bridge at a high cost to taxpayers is not the answer. Maybe the answer is the governmental workforce solution, to start/end work time adjustment to 7- 4, 8-5, 9-6 where only a third of public servants will be traveling at one given time, during high volume traffic periods.
