

Submitter: Karen Barnes

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

To Whomever this may concern:

I have a granddaughter who attends a charter school within a district that this bill would affect. The school's building lease will soon be up and has purchased a forever home just outside the boundary and we would ask that an exemption be made for City View Charter School to operate as a charter school while awaiting the move...during the move and after the move. Please do not displace these children who love their school.

Thankyou Mrs. Karen Barnes
