Measure: SB767

I have a friend attending a charter school in oregon. They are currently renting a building and their lease will soon be up. They have secured a new building, a building to buy, their forever home. However it is 0.5 miles outside of the school district. If this bill passes it will mean the end of their school. I am writing this asking for some exceptions to be made. Such as being allowed to operate a certain amount of miles outside of the school district. The bill passing without such exemption will displace my friend's daughter and many more from their beloved school.
