

Submitter: Derek Becker  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2572

Members of the Committee,

I oppose HB 2572 for a simple reason; The 1st Amendment to the United States Constitution guarantees the right of free assembly. This bill, should it become law, would take away that right; except for the lawless rioters that have destroyed Portland. Additionally, it would give the State the power to determine what the intention is of a person or group. The State cannot read minds.

Please do not let this bill become law. We have enough laws that are not being enforced as it is.

Respectfully
