I support this amendment to Oregon's constitution. Oregonians should have the basic right to fish, hunt or harvest wildlife or gather wild foods. No one should be able to tell us that we cannot raise our own food or forage or hunt or fish for it. My family and many others in our community hunt, fish and forage for their food then purchase as needed or for the convenience of it. No one should ever be able to force us to make choices that are not the best for our families, it should be each individuals choice. Some people do not like to do those things and that's perfectly fine for them but they should not be allowed to take away the choice for everyone. If we didn't have hunters, fishers and gatherers then none of us would be here today.
