Measure: HB2572

I oppose this Insanity! I think there are more importation things to get done! You know.. climate change.. just kidding.. we all know that's bs. Just more control and more taxes.. I h8 just about everything you commies do. Remember that Oath you took? It's such a shame that you commies go completely against it! You all should be brought up on charges imho! And then kicked to the curb without a sandwich!
