

Submitter: Greg Haskell
On Behalf Of: SB 586
Committee: Senate Committee On Judiciary
Measure: SB586

I am pleased to offer testimony in support of SB 586, to establish a confidentiality statute specific to restorative justice programs. It is essential that participants in a restorative justice program can fully engage and speak honestly without the risk of having their words used against them in a legal proceeding. SB586 would ensure that such restorative justice programming can take place.

Thank you for advancing a bill that will help create room for Oregon victims and survivors (as well as offenders and the larger community) to experience healing!

Greg Haskell
