

Submitter: Grace Hansen
On Behalf Of: Isaac Hansen
Committee: Senate Committee On Human Services
Measure: SB646

Please consider making this permanent. For families like mine with nonverbal kids we need to have an option to be home with them. It is hard and honestly scary trying to find a good respite provider and what we want most is to be there for them knowing they are getting the best possible care. My son self harms when Dad isn't near and if not passed he will have to go back to work leaving Isaac unnecessarily stressed. :(
