

Hello,

My name is Branden Stotts. I work with RISE Services Inc based in Independence Oregon. This is my written testimony supporting a raise in wages for all DSP's in Oregon. The biggest upside to this wage raise would be the reduction in turn around in this industry. I have been a DSP for roughly 5 months and have seen many people come and go already. I would like to see people develop stronger relationships with clients and coworkers to build a great team of support for everyone. At the end of the day, it's about the people we support. So I ask this, please help us help our clients have the highest quality of life in these hard times!

Thank you,

Branden Stotts
