

Submitter: Nick Bridges  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2572

I am opposing HB 2572 because it is a vaguely written bill that endangers first responders of any stripe...training to be proficient in the use of firearms, be it recreation or security of family, groups, etc...the wording is subjective to easily changing definition on the fly with "..." marks... remember, the 2A states...A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed...responsible US citizens are taking the time to be trained properly...so, who trains Fish & Wildlife, Oregon State Police, Sheriffs? We, as citizens have the same right as they do, do we not?! This bill will do nothing but add confusion to an already confused legislative body.
