

Submitter: Marc Gold

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

Direct Support Professionals in the state of Oregon provide valuable resources and a voice to clients who have difficulty doing so. Having additional funds would help DSP agencies staff group homes and provide other valuable enrichment services to new clients who need care. Additionally, an increase in DSP's wages would fuel provision of better support and continuous improvement towards a safety net for developmentally disabled clients who crucially need these services the most. Please approve this bill and help our DD service agencies continue to provide a valuable voice to those who are in need.
