

Submitter: Valerie Hernandez

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

We were essential workers during pandemic. When people were working from home or not, we were still caring for our clients 24/7 rain, snow, ice, any weather. We still continue to practice safe COVID measures by wearing masks in all our homes-we are still considered medical. Our staff deserve to get paid for all the work they do. Without DSP who knows what the world would be like.
